¹ALCOSAN charges for 15,000 gallons per quarter consist of a \$8.48 service charge plus \$4.04/thousand gallons = \$69.08

²Spreadsheet presents current billing rates, which may not represent actual municipal sewer system operating expenditures. Some communities may fund a portion of their O & M costs by other sources, such as the general fund. Two examples of communities that specifically indicated to 3RWW that they do this are indicated by *. Other municipalities may also supplement funding for their sewer O & M expenses by sources other than their sewer rate revenues.

³Rates for municipalities that are served by operating authorities may more closely represent actual operating costs. These municipalities are indicated by **.
